Hello team, and hope everyone is well. Please help us check the following:

1. Check to be sure all payment methods are switched to live mode. Authorize.net, All PayPal payment methods, Purchase order as payment. =done

2. Authorize.net badge needs to be verified.

5. Submit a service/project request login and registration page needs recaptcha.

6. Business customer Sign-in needs recaptcha.

7. Government, school & corporate Sign-in page needs recaptcha.

8. Remove check from "Remember me" in all sign in pages. =done

9. Please check to ensure customers can reset forgotten password.

10. Customer registration confirmation emails must work. Both manual and automatic.

11. We need to know how to approve Business customer registration and Agency account registrations. =done

12. We were able to use "Sort" in Product list page to arrange products in the home page.

Can you please tell us how we can use it to arrange New arrival and Best seller products?
